

SPARROW LAW OPENS DEC. 1; INCITES SMALL BOY TO KILL

Believed by Many People That the Statute is One of the Most Harmful in Existence Because It Puts a Premium on Cruelty—Two Cents a Head Will be Paid for Birds.

Beginning Dec. 1 and continuing until Feb. 1, the villages and townships will pay two cents apiece for sparrows. Who advocated this bill and saw that it was passed is not known, but it is considered by many people one of the worst and most harmful laws in existence. It places a premium on cruelty and incites the small boy to kill; for it is only the small boy who will go around hunting sparrows for the bonus offered. Of course, everybody realizes that sparrows are a nuisance and that they should be exterminated, but the sparrow did not come here of his own accord. Like many other evils it was imported, by offering a bonus for sparrows, the citizens instill into the hearts of the growing generation a desire to destroy that is sometimes attended with grave results.

The local ordinances forbid the carrying or discharging of firearms or the popular "air gun," so the only method left open is to trap or poison the birds. Many of the traps used are of the crudest make and represent some ideas that would do justice to Nero in his palmist days. If it is necessary to exterminate the sparrow, it is argued a better method can be found than the present inefficient one, which only uselessly incites young people to cruelty of the worst and most petty sort, and for an equally petty gain.

HOUGHTON COUNTY TO GET \$25,759 OF SCHOOL MONEY

Under the figures prepared for the apportionment of the primary school money tomorrow Auditor General Fuller's department announces that there will be \$25,759.21 to be sent out to the school districts of the state, many of which will add it to the already on hand of money they cannot expend. This apportionment is on the basis of approximately \$1 per capita.

Among the large counties of the state the amount will be distributed as follows: Genesee, \$18,794; Ingham, \$18,707; Jackson, \$11,409; Kalamazoo, \$13,208; Kent, \$13,570; Houghton, \$25,759; Muskegon, \$11,548; Saginaw, \$26,093; Bay, \$22,632; Oakland, \$19,529; Wayne, \$116,961. Of the nearby counties, Clinton will receive \$6,322; Eaton, \$1,036; Shiawassee, \$3,664 and Livingston, \$4,538.

Calumet township will receive \$9,839. The village fathers of Red Jacket are working on the proposed extension of Fifth street to the village limits on Spruce street beyond the Copper Range railroad's tracks. It is realized that the season is too far advanced to commence work this fall, but every detail is to be arranged this winter with a view to making an early start next summer.

NOV. 11 WILL BE GERMAN DAY THROUGHOUT COUNTRY

Loyalty of German-Americans to Their Chosen Land Has Not Driven Out Custom of Homage to Fatherland—Pledged Never to Allow German Language to Become Extinct.

On Oct. 6, 226 years ago, Pastorius and his band of first German immigrants came to America. On Oct. 24, 1833, they began laying out German town. On Nov. 11, which will be German day throughout the United States, the Germans of this country will celebrate the two events.

During the seventeenth century social conditions in Germany were frightful. A peculiar religious sect, closely akin to the Quakers in England, was the object of bitter persecution. William Penn visited Germany, and stirred up the religious people to such sympathy with his views that Pastorius, himself son of a judge and of high education, gathered a colony of Mennonites, weavers from Creiden on the Rhine, and they settled near Philadelphia, which they named for themselves Germantown. As were the others, Pastorius' first residence was a mere dugout. William Penn wrote of Pastorius that he was "sober" upright, wise and pious—a man every-where esteemed and of unspotted name.

From Germantown came the first protest against African slavery, in 1688. It was in the form of a quaintly worked petition, appealing to the golden rule in the following language: "Pray, what thing in the world can be done worse toward us than if men should rob or steal us away, and sell us for slaves to strange countries, separating husbands from their wives and children. Being now this is not done in the manner we will be done at; therefore we contridict and are against this traffic of men."

More colonists came over from Germany and settlements were made in New York, western Pennsylvania, Maryland, Virginia and the Carolinas. In manufacturing and typefounding the Germans excelled. When the war of the revolution broke out, the Germans displayed loyalty to their adopted country. Many Germans volunteered. It was a German regiment that saved the day at Brandywine and Baron Stubben's heroic service at Valley Forge holds its place in history. During the civil war, too, the German-Americans performed notable deeds. Blanche's division protected the retreat from the battle of Bull Run. Gen. Franz Sigel saved the state of Missouri to the union. And high among all the heroic German names in American history is that of Carl Schurz, who gave up his embassy to Spain to become a general of volunteers. But withal, their loyalty to their chosen country has not driven out the custom of homage to the German-American population to the fatherland. It is to remind them never to allow the German language to become extinct, or to allow it to be expelled from their homes or schools, that the Germans in America have set Nov. 11 as German day.

FIRST DEER OF THE SEASON ARE SHOT BY MOHAWK MEN

Within Eleven Hours After Opening of Season Nordstrom Brothers Return With Two Magnificent Trophies of the Chase—Hunters Are Anxiously Awaiting Arrival of Snow.

Nordstrom Bros., of Mohawk, are credited with bringing in the first deer. Within eleven hours of the opening of the season, or at 11 o'clock yesterday morning, they had returned to their homes with two deer, one weighing 225 pounds and the other 256 pounds, or pretty close to that mark. The hunters had only about five hours of hunting, as it was not possible to see until 5 o'clock in the morning, and within six hours or that time they bagged two magnificent trophies of the chase.

Hunters are anxiously awaiting the advent of snow. It is easy to trace deer once they have been wounded if there is snow on the ground. Provided there is no snow hunters will lose many deer. Still, with or without snow, hunters are flocking to the woods daily. The Mineral Range, Copper Range, and Keweenaw Central railroads are daily bearing scores of men to the woods, and many more anticipate going out this week. Deer are reported very plentiful throughout the copper country. Especially is this true of Keweenaw county and some parts of the South Range. Ontonagon and Baraga counties also report deer numerous, and prospects are very bright for a successful season.

"THIS DATE IN HISTORY."

1620—Pilgrims elected John Carver governor of the new colony.
1794—Marquis de Lafayette evacuated from prison at Olmutz.
1805—Charles Wheeler Denison, author, born in New London, Ct. Died there, Nov. 14, 1881.
1854—William Y. Atkinson, 27th governor of Georgia, born. Died Aug. 8, 1899.
1859—Washington Territory admitted to Statehood by proclamation of the President.
1899—John A. Logan, Jr., killed in battle in the Philippines.
1905—Rt. Rev. Thomas F. Davies, Protestant Episcopal bishop of Michigan, died in Detroit. Born at Fairfield, Conn., Aug. 31, 1831.
1908—Resignation of the Deakin ministry in Australia.

James Lettner and William Wolsing have left for Matchwood, where they will hunt.

The Doctor's Question Some Advice Against the Use of Harsh Purgatives and Physics.

A doctor's first question when consulted by a patient is, "Are your bowels regular?" He knows that 88 per cent. of illness is attended with inactive bowels and torpid liver. This condition poisons the system with waste matter and causes accumulation of gases which must be removed through the bowels before health can be restored.

Salts, ordinary pills and cathartics may be truly likened to dynamite. Through their harsh, irritating action they force a passage through the bowels, causing pain and damage to the delicate intestinal structure which weakens the whole system, and at best only produces temporary relief. The repeated use of such treatments causes chronic irritation of the stomach and bowels, dries and hardens their tissues, deadens their nerves, stiffens their muscles and generally brings about an injurious habit which sometimes has almost, if not quite, fatal results.

We have a pleasant and safe remedy for constipation and bowel disorders in general. We are so certain of its great curative value that we promise to return the purchaser's money in every case where it fails to produce entire satisfaction. This remedy is called Rexall Orderlies. We urge you to try them at our entire risk.

Rexall Orderlies are eaten like candy, they act quietly and have a soothing, strengthening, healing, regulative influence on the entire intestinal tract. They do not purge, gripe, cause nausea, flatulence, excessive looseness, diarrhoea or other annoying effects, and they may be taken at any time without inconvenience.

Rexall Orderlies overcome the drugging habit and safely remedy constipation and associate ailments, whether acute or chronic, except in surgical cases. They are especially good for children, weak persons or old folks. Price, 36 tablets 25 cents, and 12 tablets 10 cents. Remember you can obtain Rexall Remedies in Calumet only at our store—The Rexall Store, Vaastbinder and Read.

LAURIUM

AUTOMOBILE COMPLETES UNUSUALLY HARD TOUR

C. E. Hankwitz of Merrill (Wisconsin, is the First Automobile Owner to Drive His Car From Calumet to Wisconsin State Road—Letter Describes Long Trip.

A letter was recently received in this city from C. E. Hankwitz, at Merrill, Wis., who has completed one of the most unique and difficult automobile trips ever attempted. Mr. Hankwitz is probably the first automobile driver who has ever made the entire trip from the copper country, south to the state roads in Wisconsin by automobile.

When Mr. Hankwitz, who was accompanied by his wife and family arrived in Calumet in their Buick automobile, they had completed one of the longest tours ever attempted. Starting from their home at Merrill, Wis., they went south to Chicago, then east to Three Rivers and Saginaw, Mich. From that section they went south into Indiana, and returned to Chicago, coming from that city direct north to Marquette, from where their machine was shipped to Calumet by rail. While in this city they were the guests of Mr. and Mrs. Will Mercer for about two weeks.

On the return trip to their home, Mr. Hankwitz determined to attempt to make the entire trip out of this section in his machine. He went first to Rockland, then south to Watersmeet, a distance of about twenty-five miles. The roads to that place were decidedly rough. Mr. Hankwitz' machine is the first that ever visited there and was the object of considerable curiosity among the townspeople. Notwithstanding the fact that there is no road south of Watersmeet, Mr. Hankwitz determined to make the trip, and provided himself with an ample supply of gasoline. Then commenced a tedious wind on a narrow trail through the woods for sixty miles. At the end of this trip, he was finally rewarded by reaching the Wisconsin state road, from where no difficulty was experienced to his home in Merrill.

The entire trip occupied about three months, and during this time, the machine travelled nearly 2,000 miles. About five hundred miles of this total distance was over roads which other drivers had considered unfit for their machines. The record is one of which the driver is very proud.

FUND IS INCREASING.

The fund which is being collected under the direction of the Calumet & Hecla Rod and Gun club to defray the expense of propagation of fish in the copper country streams and to import rabbits and other desirable game, is rapidly increasing. There is little doubt that the campaign which is being waged will provide ample funds for this purpose. Ed. East is the treasurer of the fund, and contributions will be received at the State Savings bank of Laurium, or by any member of the club.

NEW FRAUD IN BUTTER.

Watering Scheme That Greatly Adds to Weight of Product Exposed.

Dr. S. J. Crombie, secretary of the state board of health in Kansas, and some of the pure food inspectors of that state, have unearthed a new scheme whereby the farmers can double their money on butter. It was recently found that a Kansas City firm was selling a preparation that made it possible to add 100 per cent. of water to butter and still made such good butter that only experts could tell that it was watered. A pound of real butter, a pound of water and a few drops of a certain emulsion churned together will make up two pounds of butter. The emulsion has the appearance of glue, it being sticky and rather thick, but is transparent.

The chemical experts of the health board have declared the emulsion harmless. It is cheap and it increases the cost of the butter very little. Butter increased in weight by the use of the emulsion and water has been bringing the farmers from thirty to thirty-five cents per pound, so that they have been making a big profit.

It is said that the Kansas farmers have been selling butter of this grade for some time and it is thought that their product has been shipped to a number of other states during the past year. In view of the fact that there is nothing injurious in the preparation, it is a question whether its manufacture can be suppressed.

Eight births and no deaths have been reported in the village of Laurium so far this month.

GOOD PRICES FOR LUMBER WILL MEAN BIGGER OUTPUT

Copper Country Lumber Camps Are Now Operating on an Extensive Scale—Demand for Capable Woodsmen is Heavy and Good Wages Are Being Paid to Men.

Logging operations are now being extensively conducted in the several copper country camps. Frank Bushnell was in Calumet yesterday en route to his camps at Copper Harbor where he has a large force of men at work, and reports the conditions as very satisfactory. He has a contract with Charles Hebard & Sons, of Pequaing, to cut a considerable quantity of timber, cedar ties, logs, pulp wood, and flat timber, this winter.

Mr. Bushnell and other lumbering men believe that operations in the woods this season will be heavy, as indications point to a brisk demand for forest products next season, causing better prices. Several mining companies in the copper country will not be in the market this winter for timber, as practically all of the companies, especially the C. & H. have a large supply on hand, and will need very little to replenish their stock.

The Morrison Estate will cut considerable timber this year, and has large camps operating in Keweenaw and Baraga counties. George Jacks is operating lumber camps in the Alston district, while B. Quella and Dave Kingston are cutting considerable timber in Keweenaw county.

There is a big demand for woodsmen in the lumber camps and Employment Agent Perreault is experiencing difficulty in meeting the demand. He has orders from practically every camp in the district. Good wages are being offered, better than for several seasons.

STRUCK BY AN ARROW.

Little Son of Mrs. Kate Maslin Suffers Serious Accident.

While playing with bows and arrows little Robert Maslin, son of Mrs. Kate Maslin of Laurium, suffered serious injuries yesterday by being struck in the eye with one of the missiles shot by another boy. The arrow struck close to the pupil of the eye. Dr. Clarke of the C. & H. hospital is treating the member. It is too early yet to tell whether the eyesight can be saved.

SUFFERS BROKEN LEG.

Anton Nigra, of Newton, suffered an accident in Laurium this week which was of a very serious nature. It appears that he was driving on Lake Linden avenue in the night, and that he attempted to cross the street railway company's track just as one of the cars put in an appearance. It is claimed that the car struck the rig, throwing the driver heavily to the road, and that as a result of the fall he suffered a broken leg. He was removed to his home, and the injured member was given proper attention.

BROKERS ORGANIZING.

The J. A. Minner and Co. "brokers" hockey team is being organized for the season and will be ready to take to the ice as soon as the weather permits. Paul Tofte writes from Chicago that he is anxious to sign with the team this year, and it is expected that an unusually strong team will be brought together. The brokers always have one of the strongest commercial teams on the ice and this year will be no exception.

LAURIUM BREVITIES.

The students of the Sacred Heart high school are preparing for the observance of St. Cecilia's day on Monday, November 22.

A splendid program is being prepared for the dance which is to be given by the nurses of the Tamarack hospital at the First National bank hall on November 19.

A bowling club has been organized for the Calumet Social club, and it is expected that a number of interesting games will be secured in the near future.

The annual dancing party of the Calumet butchers will be conducted in the First National bank hall next Wednesday evening.

Hard Work.

Almost any man can be kept very busy living up to a little boasting.

Here is the Difference

When we enlarge pictures its pure, clean and bright work will last for a lifetime. When the other fellows do your work its not worked out. It's black, dirty looking and will fade away in a short time. Don't take our word. Call and compare our work to others, or ask your friends about us.

Our stock of picture frames is large in assortment and low in prices. We do all kinds of picture framing. If you have pictures to frame bring them along. If not you will find a large assortment at our store. We also enlarge photos on Pillow Tops, Brooches, Fobs, Watch Chains, etc., made with your own pictures in it.

Bring all your work early if you want it for Christmas.

THE DOCTOR'S QUESTION

Some Advice Against the Use of Harsh Purgatives and Physics.

A doctor's first question when consulted by a patient is, "Are your bowels regular?" He knows that 88 per cent. of illness is attended with inactive bowels and torpid liver. This condition poisons the system with waste matter and causes accumulation of gases which must be removed through the bowels before health can be restored.

Salts, ordinary pills and cathartics may be truly likened to dynamite. Through their harsh, irritating action they force a passage through the bowels, causing pain and damage to the delicate intestinal structure which weakens the whole system, and at best only produces temporary relief. The repeated use of such treatments causes chronic irritation of the stomach and bowels, dries and hardens their tissues, deadens their nerves, stiffens their muscles and generally brings about an injurious habit which sometimes has almost, if not quite, fatal results.

We have a pleasant and safe remedy for constipation and bowel disorders in general. We are so certain of its great curative value that we promise to return the purchaser's money in every case where it fails to produce entire satisfaction. This remedy is called Rexall Orderlies. We urge you to try them at our entire risk.

Rexall Orderlies are eaten like candy, they act quietly and have a soothing, strengthening, healing, regulative influence on the entire intestinal tract. They do not purge, gripe, cause nausea, flatulence, excessive looseness, diarrhoea or other annoying effects, and they may be taken at any time without inconvenience.

Rexall Orderlies overcome the drugging habit and safely remedy constipation and associate ailments, whether acute or chronic, except in surgical cases. They are especially good for children, weak persons or old folks. Price, 36 tablets 25 cents, and 12 tablets 10 cents. Remember you can obtain Rexall Remedies in Calumet only at our store—The Rexall Store, Vaastbinder and Read.
